BASEBALL

Dixfield Tournament

Dixfield 4 Livermore Falls 2; Farmington 6 Twin Towns 3; Dixfield 13 Farmington 13.

The last tournament for clubs in the Tri-County League was played at Dixfield Friday but not decided as the final game was called off on account of darkness with the score a tie.

Livermore and Dixfield put up a good argument during the forenoon game with Dixfield crowding hard, which resulted in a win with both teams in deadlock on hits. This was the best contest for the day.

The preliminary in the afternoon brought Farmington and Twin Towns into the spot light with the Towners out batting their rivals 10-6. Errors stuck out like a sore thumb and figured in Billy White's defeat. Farmington leaped into the front seat early and refused to give up, but the Twins made a good stab in the fifth with three crossings, then died on the score question. Farmington won this argument with the following score:

	1	2	3	4	5	6	7	8	9	R	H	E
Dixfield	0	0	0	0	0	4	0	0	x	4	7	4
Liv. Falls	2	0	0	0	0	0	0	0	0	2	7	3
Farmington	1	1	1	2	1	1	0	0	x	6	6	5
Twin Towns	0	0	0	0	0	5	0	0	0	3	10	4
Farmington	0	8	2	2	0	1	0	0	x	13	20	4
Dixfield	2	1	1	1	0	0	7	1	x	13	18	3

No decision was reached in the final as darkness stopped the slugging match. In eight innings Farmington registered 20 hits and Dixfield captured 18 with doubles, triples and one home run making a regular display of the old town game called scrub. Twilight aided the staging of wild sprinting, but strange to note errors were scattering.

With "Lefty" Beck hurling for the Towners that outfit jumped on the Goodall Textiles at Sanford, Monday and filed away four runs in the same number of innings. White's Towners secured eight hard blows for extra bases against Sanford's four singles. This barrage from stick exercise covered four errors which might have proved costly of Bill's team. Sanford made two misplays that figured against them and could not be cashed in with good hitting. The score:

Tournament Labor Day

The Twin Town Athletic Association will stage a big sporting carnival at the fair grounds on Labor Day, both morning and afternoon.

This is the array of talent to be assembled for a battle against a $600.00 purse, to be split in parts worth going after. The teams are the Beverlys, the St. Josephs of Lynn, the Saxonvilles, a pick of Boston Twilight League, and the Twin Towns. Positions will be drawn on the morning of the games.

The Massachusetts Clubs will attract local interest for "Lefty" Beck and "Red" Robinson hail from Beverly and Robinson was a member of the team at one time. Billy Hayes pitched for the St. Josephs before coming to the Twin Towns. The Twilight Boys under the name Saxonville, will prove interesting to look over as the Boston League games have been followed closely and the line up will contain many familiar names. They are coming to yank away the big money if possible.

Morning game at 10 o'clock Standard Time. Tickets are being sold in advance and a generous response will help the Association in financial matters. The show will cost a lump of "jack" but it will be worth the admission price to witness regular stuff in a race for real money.

Twin Town Talk

The game Saturday between the Twin Towns and Providence, R. I. team Rollers was abandoned owing to inclement weather, but a six and one-half innings practice session was staged to limber up the Providence boys for their struggle with the Star Taxis on Monday. This was a good exhibition with nice fielding and heavy swatting. Billy White displayed his wares in the box during the last inning and received an ovation for the unusual performance.

To be, or not to be the champions is a question bothering the Norway fans. This week will decide the Tri-County League race; it means Farmington or Twin Towns at the front. The locals perched on the top step from the beginning but were swatted by Farmington two weeks ago and brushed off after dropping a few games in regular order.

The rumor of Livermore Falls team disbanding and forfeiting games not played was but a myth. Apparently some person's imagination worked overtime when two players completed their contract and quit according to the manager's explanation. The vacancies were filled to complete the schedule.

Speculating on a team for next season has commenced with many in favor of keeping it up as a good summer sport for the town. Applicants for the executive committee should speak early and avoid the rush. "Buster" Brown has a breezy line of practical information and may conduct a correspondence school for all aspiring to conduct the business end of a live ball team.

RENEWED TESTIMONY

No one in Norway who suffers headaches or distressing urinary ills, can afford to ignore this woman's twice-told story. It is confirmed testimony that no Norway resident can doubt.

Mrs. Myrtie Payne, 237 Main St. Norway, says: "I used Doan's Kidney Pills and am thoroughly satisfied they are a dependable kidney remedy. I had more or less pain across my back and kidneys which annoyed me when stooping or lifting. I found Doan's Kidney Pills good for the trouble and after I used this remedy the pains lessened. I have been practically free from the trouble since taking Doan's and feel they deserve my recommendation. (Statement given June 7, 1916.)

On September 3, 1920 Mrs. Payne said: "The statement I made holds good. I recommend Doan's as highly today as I have during the past. The good they did me has lasted."

ODE TO ENRICA CLAY DILLON

Gifted by nature with voice sweet and mellow.
Disciple of Demosthenes, parchment fellow.
With wisdom, tact, experience, soon perfected
Stage aspirants short comings, quickly detected.
Student at Milan, where she made her debut.
Artists with higher honors, indeed were few,
Death Dealing War halted her career at tender age.
'Twas Thespis who beckoned her back to the stage.
Eloquence that in the general bosom doth reign
Of young and old and either sex enchain.
She could on tip of Gallic tongue
Carry all arguments and reason strong.
To make the weeper smile, the laughter weep,
In Latin Lingos solved all problems deep.
Teaching Hamlet's methods to many who won fame,
Dillon as Dramatic Teacher attained a great name.

CHARLES HEIDELBERGER.
Harrison, Me., August 22, 1923.

THE POINT OF VIEW

"Tough old world," moans the kicker,
"Everything goes dead wrong,
Wallops and hates, and bruises
We get as we go along."
And he sighs with his head turned downward
And never has chanced to see
The gold of the day, and the gladness
God builds for you and me.
"Pine old world," says the dreamer,
"Filled with a joy divine,
Love and laughter and music,
And every bit of it mine."
And he sings with his face to the heavens,
And finds in the dreariest day
The hint of a star tomorrow
To shine on the human way.

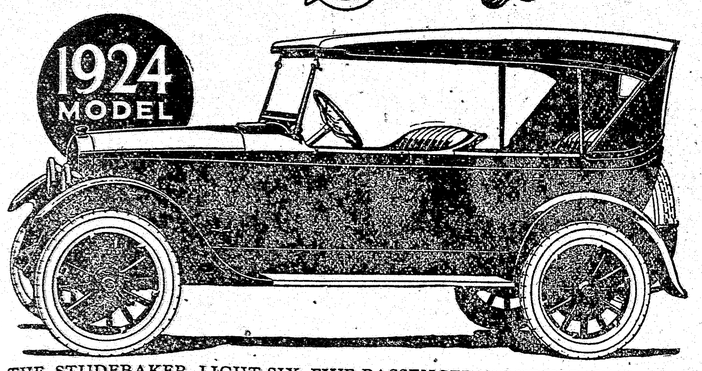
INTEGRITY Studebaker SERVICE



THE STUDEBAKER LIGHT-SIX FIVE-PASSENGER TOURING CAR $995

130,000 Owners Know the Value of this Studebaker

Every unit in the new 1924 Studebaker Light-Six Touring Car has proved its dependability in public use.

There are refinements and improvements, of course, but the underlying principles of design and construction which have made enthusiasts of 130,000 purchasers of this model in three years' time, are not radically changed.

In our opinion, the 1924 Light-Six stands out as the greatest value and closest approach to mechanical perfection in moderate priced cars yet produced.

It is practically free from vibration. Studebaker accomplishes this largely by machining the crankshaft and connecting rods on all surfaces. This requires 61 precision operations. It is an exclusive Studebaker practice on cars at this price—and is found only on a few other cars—and they're priced above $2500.

Absence of vibration prolongs car life, causes slower depreciation, reduces the cost of operation and adds to the enjoyment of driving.

The Light-Six motor embodies the most advanced design known to automobile construction. It represents an achievement in the manufacture of quality cars in big volume.

Aside from its mechanical excellence, the Light-Six is handsome in design, extremely comfortable, sturdy and economical to operate just as it is in initial cost. It is powerful, speedy, has a pick-up range that is seldom taxed and never exhausted, is easy to handle, and convenient to park.

Its enameled all-steel body, one-piece, rain-proof windshield, ten-inch cushions upholstered in genuine leather, and cowl lamps are among many features heretofore to be had only in higher priced cars.

For 71 years the name Studebaker has stood for unfailing integrity, quality and value.

New all-steel body of striking beauty. One-piece, rain-proof windshield with attractive cowl lights set in base. Quick-action cowl ventilator. Door curtains, bound on three sides by steel rods, open with doors. Removable upholstery in tonneau. Door pocket flaps with weights hold them in shape. Upholstered in genuine leather. Large rectangular window in rear curtain. Thief-proof transmission lock. Standard non-skid cord tires, front and rear.

Family Gathering

An informal family gathering was held Sunday at the home of Loren B. Merrill when about twenty assembled for a quiet social time. Beside L. B. Merrill and his immediate family were George W. Merrill and family of Auburn, Charles H. Merrill and family of Norway and Henry Merrill and family of South Paris.

A fine dinner was served in a tent and the entire party assembled in one happy group during this happy hour. The afternoon was devoted to sociability and just visiting.

Mr. Merrill is also celebrating the close of a successful quest after minerals for the Harvard University Museum. For seven weeks Mr. Merrill, his son-in-law Arthur Valley, with K. K. Landis and Prof. Palachoe of Harvard University have blasted hundreds of tons from Noyes Mountain in Greenwood for cabinet specimens. About one ton was selected from this mass of material and shipped to Cambridge.

Mr. Merrill has seen many heavy blasts in his long years of experience but one mighty upheaval on this job impressed him as the "limit." On one occasion they exploded two and one-half kegs of black powder in one blast and lifted between forty and fifty tons of rock. Huge fragments were hurled through the forest and down the mountain side, cutting off trees eighteen inches in diameter and mowing wide swaths resembling the havoc of shell fire. So powerful was the explosion one block 40x10 feet was forced some distance and smaller fragments from the block clipped off on oak tree two feet in diameter. The miners used a cave not far from the scene for a battery room and for a bomb proof shelter during a blast.

Mr. Merrill has the best collection of minerals and gems from Mount Mica Tourmaline Mine in the state. From this display the Harvard representatives made several important purchases representing the price of at least three new Fords. The specimens will be on display at the University as the best of their kind obtainable.

Farewell Reception to Mr. and Mrs. Kimball

Over one hundred friends assembled in the church parlors of the Congregational church at Berlin, N. H. on Tuesday evening, Aug. 21 to attend a reception and farewell party to Mr. and Mrs. C. P. Kimball.

The parlors were attractively decorated. Masses of golden rod and golden glow were used and the rooms were cozily arranged with settees, artistic lamps etc. Rev. Edward Moore, the pastor came up from his summer home at Lewiston to attend and he was master of ceremonies. A program was given every number of which was enjoyed, Mrs. Briggs, Miss Buck and Mr. Gibb giving vocal solos with Mrs. Farrand at the piano. Rev. Mr. Moore gave an interesting talk and was followed by Ex-Mayor George Hutchins, who presented Mr. and Mrs. Kimball with a fireplace set, andirons and screen complete. Mr. Kimball very feelingly responded.

The party then adjourned to the dining hall upstairs which had been decorated with handsome flowers, yellow and gold predominating. Ice cream, cake and coffee were served and a social hour enjoyed. Mr. and Mrs. Kimball have been residents at Berlin for many years and have been active in their church as well as the social life of the city. They have sold their house and will move to Bryant's Pond, where they have purchased a place and will make their home. Mr. Kimball has recently resigned his position with the Brown Company after thirty years continuous service. The best wishes of their Berlin friends go with Mr. and Mrs. Kimball to their new home.

ALBANY

The children's exercises in the Albany Congregational church at Hunt's Corner, Sunday morning was well attended and proved interesting and helpful.

The Sunday Schools at Songo, the Marshall district and Bisbeetown united with the local School and assisted in the exercises. A rehearsal was held in the vestry before the service, after which the pupils marched to their seats in the church while singing "Onward Christian Soldiers." The order to follow included recitations, songs and group exercises. Mr. S. B. Mosby the student-worker for the summer delivered a brief address. The subject was "Importance of Reading the Bible."

A song service in the evening was led by Mr. Mosby with Scripture reading and prayer. The exercises following included vocal solos and quartets, instrumental accompaniment and congregational singing.

Mr. Mosby has closed his labors for the summer and returned this week to his home in Worcester, Mass. After a short visit with his father he will resume his studies in Wheaton College, Wheaton, Ill.

On next Sunday, Sept. 2 at 3 P. M. Rev. S. T. Achenbach of Bethel will preach and hold a Communion service.

BETHEL

The friends in Bethel and Albany of Mr. and Mrs. L. C. Ballard (nee Viola Cummings) of Pittston, deeply sympathize with them in the loss of their four yead old boy, Donald, who was killed by an auto running over him a few days ago. A number of relatives in Albany, including her brother and sister, attended the funeral, Friday, at the home in Pittston.

Bean's Corner

The friends and neighbors of Russell L. Swan were much surprised when he returned from Boston, August 21, with his bride. The wedding took place Aug. 19th at 2 p. m. at the Congregational Church. The bride, who was Miss Ruth Steinhom, is a native of Massachusetts. They will make their home with Mr. Swan's parents.

Lydia E. Pinkham's Vegetable Compound Brought Relief When Other Medicines Failed

Winston-Salem, N. C.—"I was weak and run-down and had trouble with my side. I had been taking medicine for a long time and nothing seemed to do me any good. My husband went to the drug store and he said to the clerk, 'I want the best medicine you have for women's troubles.' He gave him a bottle of Lydia E. Pinkham's Vegetable Compound and it has helped me. In a short time I was able to do my housework, and now I am not only able to do every bit of that and washing and ironing, but I help my husband at the store and feel good all the time."—Mrs. L. K. MYERS, 1409 E. 14th St., Winston-Salem, N. C.

STORY OF BY-GONE DAYS

Twenty-six Years Ago

St. Catherine's Catholic church on Alpine Street was dedicated, Sunday. The service was performed by Very Rev. Fr. Michael C. O'Brien of Bangor, Vicar-General of the Diocese of Maine. Rev. Fr. A. O. Gagnor of Sherbrooke, P. Q. sang high mass. Rev. Fr. Grolleau of Lewiston delivered a short address in French. This is the third Catholic church to be dedicated in Oxford County.

Seventy-five more Italians arrived this week to work on the new electric road to Waterford. Two hundred in all are employed, grading and putting in culverts.

Charles Smiley is head clerk at the Smiley Dry Goods Store opened Wednesday. He is assisted by Frank S. Beck, Maude Williams and Jennie Baker. The Smiley Bros. have a large wrapper manufacturing business at Clinton, Mass. which may be moved to Norway.

Many dead limbs are being removed from trees along Main Street by Surveyor George Austin. The big fire in 1894 caused the trouble and many large branches are a source of danger. Several shade trees are so badly damaged removal is necessary.

NORWAY AND VICINITY

Norway School Life

When the pupils of the eighth grade graduate into the High School they feel a great joy and pride. They are supposed to be ladies and gentlemen and settle down to work.

Of course the "Sophies" try so hard to scare the little "Freshies" but they do not succeed.

The work in the High School is quite different from that of grammar school. Most all the written work should be done at home. There are many things in high school that are very interesting to the students. There are the athletics, baseball, basket ball and foot ball, class rides, dramas, suppers and dances, also graduation, then each boy and girl must take part.

Soon, before the students realize it, they are to graduate from high school. "My! the time has gone by so fast," you will hear some say.

Many Seniors will feel "blue" when they are standing before the audience saying their class parts and bidding farewell to the undergraduates and to the dear teachers and principal.

One thing students should have, and that is ambition to get an education. Remember this boys and girls this quotation that came from the book of Julius Caesar. "Ambition should be made of sterner stuff." I hope all the boys and girls will write that quotation on their brain and if you do not succeed in your studies the first time "try, try again."

Written By R. E. C.

Changes have been made by the School Committee to meet conditions in the grades. All second grade pupils will attend school at the Middle Primary, (Tucker Street). First grade pupils living above Marston Street will attend the upper Primary (upper Main Street); pupils below Marston Street will be cared for at the Lower Primary (Ward 8). A sub-primary will be established at the upper and lower buildings, giving three years instruction below the third grade.

Norway Board of Trade will meet at the Municipal Court room Friday evening, August 31 at 7:30 o'clock. Every member should attend for it is important.

A tip to drivers— and pedestrians too

By THE VETERAN MOTORIST

I SUPPOSE it's because I've driven around so much in the last fifteen years that I've seen about twice as many accidents as the average motorist. Can't begin to remember them all, but I know a lot were connected with passing trolleys.

One special reason for this lies in the different rules and regulations that prevail in different localities. In some places you may not pass a standing trolley at all, and there the pedestrian crossing the street should be perfectly safe from automobiles, so long as the trolley remains standing. In other places motors may pass a standing trolley "with due care" or "not less than" six or eight feet away; in these cases both driver and pedestrian ought to watch their going mighty carefully.

My best advice is to keep up to date on your own local rules about passing trolleys, etc., and follow them scrupulously. When you are away from home, and may not know all the local provisions, abide by the strictest rules for safety that you do know.

If parents are not already awake to the dangers which exist in some of the jazz dance halls they are likely to be if there are many campaigns like the one which has just been commenced by President Little of the University of Maine. Mr. Little has caused to be sent to the parents or guardians of the 1400 students under his charge a letter which insists that cheek to cheek dancing shall not be indulged in, and that contact of partners shall be confined to the arms. All dances, even those taking place in the fraternity houses, will be policed by observant chaperons, and patronesses who will complain to college authorities if any student is seen dancing improperly. Students will be notified of infractions of the rules by letters. A first offense will bring forth a reprimand, a second offense will place a student on probation, and a third offense may bring about his or her suspension.

What is the Life of an Exide Battery?
Many car owners have obtained five or more years of service from their Exide Batteries. Others permit their batteries to be ruined in a few months through neglect and preventable abuse.
The things which do the greatest damage are lack of water, lack of charge and properly secured. So we say frankly to Exide owners that the life of their batteries is largely in their hands.
Keep your battery well charged, filled with water, clean and properly secured in its place and it will give a long life and unfailing service.

Soundless Town Clock

The town clock is again in action after a three days vacation; that is the time keeping mechanism is working, but no more talking out the hours for the present. Something slipped in the striking machinery last week and the thing ran wild, stripping gears and cutting up generally. This is our first serious mishap in many years.

Vivian Hills, who installed the clock 29 years ago was called to diagnose the disease, and he ordered all damaged parts removed. The factory may supply one or two wheels but it is believed the main repairs can be done in town. No date can be set for the sound of the familiar bell, in the meantime our nights are as peaceful as a country grave yard, with the tomb like stillness after midnight broken only by high pitched giggles and chatter from home going jazz chasers.

Doris Longley finished her vacation at home, Wednesday, and started for teaching at Addison, N. Y. She will stop over a few days at Syracuse, N. Y.

Meda Lodge, Dr Godfrey's camp on Lake Pennesseewassee is visited by several scientists. It's latest addition is a powerful wireless receiving set. Dr. Chas. C. Godfrey, chief surgeon of the Bridgeport Hospital, astronomer, botanist and radio experimenter, is visited by several of his scientific friends, each an expert in his line.

Dr. E. H. Eames is a renowned botanist from Bridgeport and after tramping the nearby woods for several days he has gathered several rare specimens not found in this locality before by any other botanist.

Prof. J. Ernest G. Golden is an astronomer of note and has been exploring little Pennesseewassee together with the balance of the surrounding country. He is thinking of building an observatory on top of Noyes Mountain in order to see if the local moon is different from the one he views locally from his home in Leonia, N. J.

Louis G. Pacent, a radio engineer from New York brought up a small, powerful receiving set which surprised its audience at the camp by picking up Chicago, New York, Boston, Springfield, Schenectady and several other stations loud enough to be heard throughout the camp by using a homemade loud speaker with a birch bark horn. The set is of the latest type employing two stages of radio frequency detecter and two stages of radio frequency.

PAINT RURAL MAIL BOXES

Government instructions to patrons on rural delivery routes are as follows:

"It is desired that the boxes be painted white with the name of the head of the family, or families, receiving mail in the box, painted on both sides of the box in neat black letters one inch in height; also that the painting be done, at least, once each year. It is requested, also, that the posts, or supports, be painted white. This not only improves the appearance but adds materially to the life of the boxes and posts."

Willard STORAGE BATTERY

What Time Does to Your Battery

A little while ago we likened wearing out a battery to wearing out a pair of shoes. Let's go a little further. Suppose that, instead of wearing out that pair of shoes, you wore them only a few weeks and then put them out on the back porch and left them for a year or so exposed to sun and rain. You'd find that the leather had got hard and dry, and that the stitches had weakened and the lining rotted so that the shoes would, perhaps, not be fit to wear at all. In other words those shoes had been wearing out all the time thy were on the porch though they were not being used at all. It is exactly the same with the battery. It was made to use, and the way to get the most value out of it is to use it day in and day out.

Power to Stop!
Buick Four-wheel Brakes

BUICK four-wheel brakes provide a factor of safety welcomed by every driver. No matter how careful he may be there are moments when the power to stop his car quickly and surely averts a serious accident.

Buick four-wheel brakes operate simply by light pressure on the foot pedal. There is no change in the method of operation over former Buick rear wheel brakes.

Buick rear brake construction has proved its dependability for many years. Identically the same principle, simple in its mechanism and effective in its braking control, now has been employed on the front wheels.

The adoption of four-wheel brakes by Buick on its 1924 cars is wholly in keeping with its policy of giving the owner everything that will increase his safety, comfort and satisfaction.

The 1924 Buick cars likewise are distinctive for their beauty, their increased power, ease of operation and comfort—giving features never before found on motor cars.

WE PROGRESS THROUGH CHANGE

Perhaps in no other field has improved machinery played such an important part as in agriculture. Modern farm implements enable one man to do what it required five or six men to do before.

Banking methods have also improved. New equipment has aided us and we have found newer and better ways of doing things. Because of our modern methods we are able to render a better banking service to farmers, business men, and all others who have their accounts here.
